

PreludeSuite

Better virtual teamwork sooner

About PreludeSuite

Online Platform for Virtual Team Building

Mission: To empower virtual team trust, innovation, and performance on a global scale.

Proprietary Intellectual Property: platform, algorithm, software and learning methodology

Practice: Our Solution

Virtual project team members need practice working together. Taking a bit of time to understand each other as human beings - as unique individuals with diverse strengths and aspirations - leads to improved psychological safety, trust, collaboration, performance, results, and wellbeing.

Professional User-Ready

Designed for ease/speed of training and facilitation by Professionals who already know what they're doing: *Project Leads, Agile Coaches, Scrum Masters, Consultants, & Educators*

PreludeSuite User Personas

**1. Peter, PMP, P. Eng
Company Project Manager**

Needs to improve performance of several cross functional distributed teams working on a mega project that report to him and another manager

**2. Juan, Scrum Master
Freelance Consultant**

Needs to enhance his distributed team facilitation skills and differentiate his brand using resources that reflects and support his work-life-balance and humanist ethos

**3. Mary, MBA
HR Director, Global Corp.**

Needs to to quickly improve communication and collaboration between four distributed teams the result of a major merger with large layoffs and must be done only online

**4. Salima, MPH
Segment Lead, Global NGO**

Needs to provide the best possible virtual team training program for the employees within budget and has been tasked to source the marketplace

**5. Dr. Mai Ling
Business Professor**

Needs to find or build online skills training resource for graduate students on capstone project teams at the start of school term

Product Description: Virtual Team LX

Teammates grow from “Me” to “We”
in one seamless facilitated online
experience.

Core Team Exercises

Teams better understand each other and how best to harness their diverse strengths together almost instantly.

iStar Self-Discovery

Teams start with a strengths-based self-assessment using a universal symbol of excellence to foster team awareness.

iStar Story Sharing

Teams share individual stories about their values, strengths, & goals. Create symbols of excellence. Build togetherness.

weStar Team Alignment

Teams easily picture their diverse strengths for gaps or imbalances. Quickly see how to align their strengths for optimal results.

May be used with most:

- Collaboration & Communication Platforms
- Online Interactive Whiteboards
- Learning Management Systems

Basic Requirements

- High speed broadband, connectivity, video capacity, headphones
- Computer, Tablet

5X5 Signal: Can You Hear Me Now?

Wireless signals travel through air as invisible vibrations. Signal strength and clarity are rated out of 5. The best signal is 5X5.

Vibes also refer to someone's emotional state which we feel without words. Emotions "travel" as electrical energy at a subatomic level. Someone with "good vibes" signals *self-awareness, authenticity, and sincerity*. Good vibes spread when people are positive and having a positive effect on others. Research backs this up. **Good vibes make for better virtual teamwork sooner!**
